

SAFE ROUTES TO SCHOOL WALK AUDIT/SITE ASSESSMENT PRIORITY LIST CITY OF SANTA ROSA (updated February 2025)

*The School list was created using data from speeds, average daily traffic, number of major streets that one might cross, if streets crossed are part of the High injury network, and based off the % of students that received free & reduced lunch. * This is a starting point with the potential for the list to be adjusted to accommodate planning efforts or any unforeseen events that maybe push a school to the top of the priority list. **Bolded sites are planned for 2024-25***
